

A photograph of a woman with dark hair tied back, wearing a plaid shirt, laughing heartily. She is seated at a table with a red basket of bread, a bottle of white wine labeled 'BIO', and a glass. Another person's hands are visible on the table next to her. The background shows a warm, lit-up building.

softlanding hubs

A photograph of two hikers in a dense forest. They are walking on a path covered in bright green moss. Sunlight filters down from tall, thin trees, creating a warm glow and long shadows. The hiker on the left has curly hair and wears a red jacket and a green backpack. The hiker on the right wears a red and black plaid shirt, dark pants, and a red cap, with a large brown backpack. Both are wearing backpacks and appear to be on a trail.

Access to  
stunning nature

## OUR COMMUNITY

# Why Skåne?

- Southern Sweden, close to Copenhagen
- International and fast-growing tech region
- Open, collaborative work culture
- High demand for STEM professionals

Skåne offers a rare mix: innovation, lifestyle, and real opportunities for tech talent.

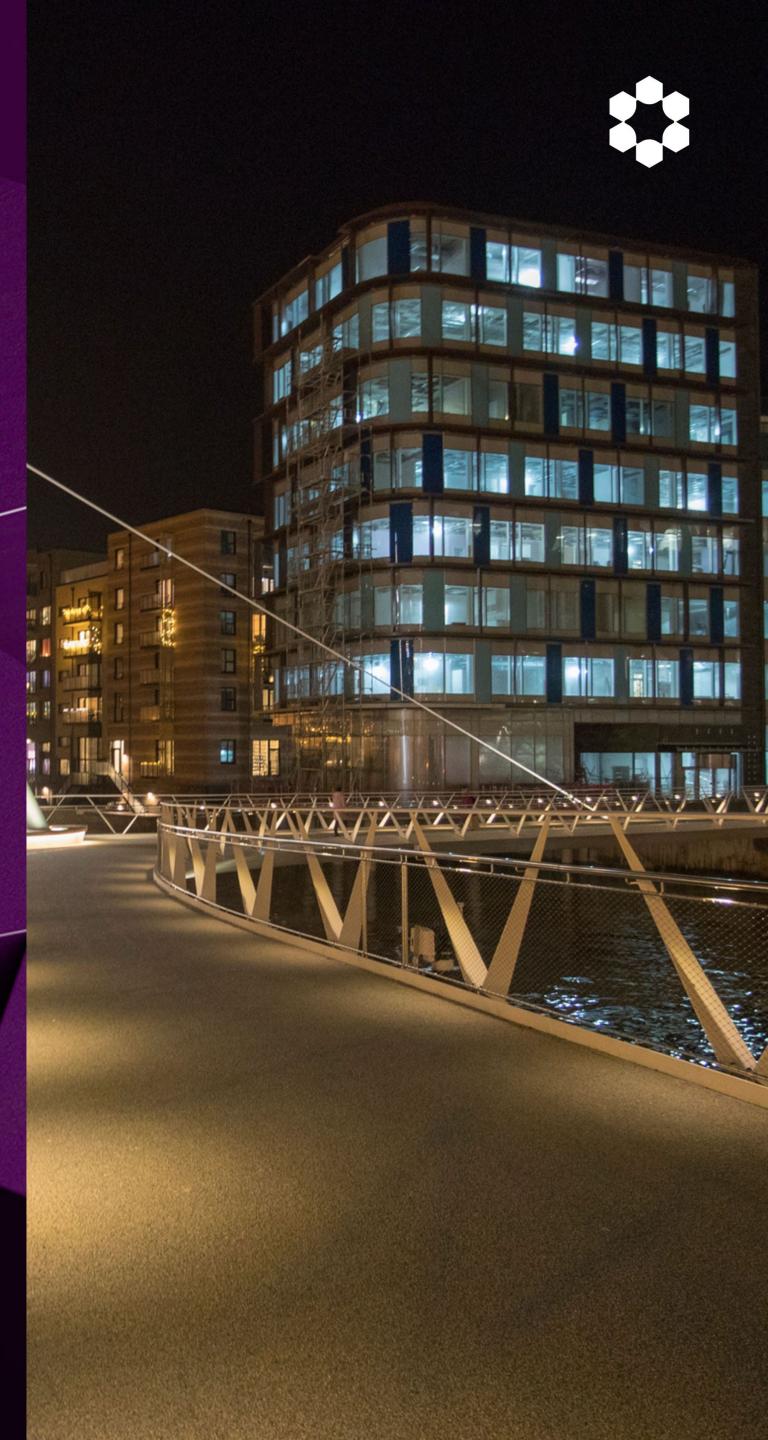

# What kind of tech companies are here?

**Companies in Skåne work with:**

- AI & Machine learning
- Medtech & Life science
- Cybersecurity
- Greentech & Clean energy
- Telecom & Embedded systems
- Mobility & Smart cities
- Gaming & Interactive media
- Cloud & Software development

## Application areas and companies - Skåne

- **AI for healthcare diagnostics** - Cellavision, Infonomy
- **Computer vision for smart cities** - SONY, Mapillary, Cognibotics
- **Cybersecurity and digital ID** - Advenica, Secure by Q
- **Cloud platforms and analytics** - Qlik, Comtain
- **5G and connectivity tech** - Ericsson, Sigma Connectivity
- **Sustainable mobility and user experience** - Volvo Cars, Wireless Car
- **Energy optimization** - Schneider Electric, Emulate Energy
- **Gaming studios with global reach** - Massive Entertainment (Ubisoft), Divine Robots

# Skills in demand

## Top technical skills:

- Programming (regardless of language)
- Cloud platforms & integration (AWS, Azure, GCP)
- Cybersecurity (IT and information security)
- Database management & data analysis
- AI and machine learning
- API design and system integration

## Valued soft skills:

- Agile collaboration & teamwork
- Communicating tech to non-tech audiences
- Product thinking & user-centric approach

# Most in-demand roles

---

- Software developers
- IT/solution architects
- Cybersecurity specialists
- Testers & QA leads
- DevOps engineers
- Data analysts & data scientists
- UX/UI designers
- Product owners & project managers

Source: TechSverige, 2024

# Where to find opportunities

- **Malmö** - AI, creative tech, gaming, sustainability
- **Lund** - Medtech, telecom, deeptech, research
- **Helsingborg** - Smart cities, logistics, e-commerce
- **Smaller towns** - For example mobility & manufacturing tech

# Final takeaways

- Skåne is full of opportunities for STEM talent
- Companies are solving meaningful global challenges
- Strong demand for skills in software, AI, cybersecurity and data
- Strong ties to Denmark and rest of Europe
- A great place to start or grow your tech career

## Let's connect

---

- Interested in working in tech in Skåne?
- Let's talk after the session - I'm happy to help you get connected.

MEET THE TEAM

Dedicated to Skåne's tech community
